SUMMARY

Versatile DevOps and Cloud Engineer with 10+ years of professional experience and a CNCF Kubestronaut.
Adept at rapidly assimilating information, drawing conclusions, and confidently presenting insights to both technical and non-technical audiences.
As a creative, curious and analytical thinker, I excel in approaching technology from a business perspective, with a strong focus on automation and infrastructure solutions to drive growth and efficiency.

PROFESSIONAL EXPERIENCE

Sr DevOps/Platform Engineer

Ollion (CloudCover) 06/2022 - Present Pune, India

Cloud, Data and DevOps Consulting

- Led the secure migration of multi-tiered applications from **Hetzner** and **Azure** to Google Cloud for a Swiss WealthTech client, provisioning **GKE clusters with Envoy Gateway,** managed databases following industry-standard security best practices
- Developed a multi-cloud **AI sandbox provisioner** (GCP, AWS, Azure, OCI) with chat and Slack/CLI integration. Enabled natural language cloud provisioning with security and approval workflows, achieving **95% cost savings**
- Implemented **ArgoCD Autopilot** for GitOps-driven deployments, managing **15+ GKE clusters** from a single Argo CD instance while maintaining high availability and scalability
- Implemented **zero-trust network** access for remote teams, initially with **Cloudflare Tunnels** and later migrating to a **self-hosted NetBird VPN** solution for private network connectivity
- Built CI/CD pipelines on GitLab to provision GCP Landing Zone infrastructure using Terraform, enabling multi-project, multi-environment deployments with consistent governance
- Deployed **AWS Landing Zone Accelerator** for multi-account governance with organization-wide security baselines and compliance guardrails **(Typescript CDK)**
- Deployed **OCI Landing Zone** for a client, establishing compartment hierarchy, IAM policies, networking, and security baselines **(Terraform)**

Sr DevOps Engineer

Sugarbox Networks 02/2021 - 06/2022 Mumbai, India

Edge cloud, CDN and Internet industry

- Architected and deployed an on-premises data platform from scratch — **15-node Hadoop cluster, 10-node Kubernetes** cluster with **Kafka**, **NiFi**, and supporting services, increasing data processing throughput by 60%
- Managed Kubernetes workloads including **Airflow**, and **Jupyter** with GitOps delivery using Argo CD, implementing **OAuth 2.0 SSO** for platform-wide access control
- Built **HealthD**, an automated incident detection system in **Python** that identified edge failures and auto-created JIRA tickets, reducing **mean time to resolution by 70%**
- Implemented real-time change data capture using **Debezium** and Kafka Connect, streaming MySQL events into the data platform for downstream processing

MY LIFE PHILOSOPHY

Works of art make rules; rules do not make works of art."

Claude Debussy

SKILL SET

Soft Skills

Leadership | Storytelling | Research

Technical Knowledge

DevSecOps | AI Infrastructure | Microservices | GitOps | CI/CD | Platform Engineering | OAuth/OIDC | Zero Trust Architecture | Agentic AI | Cloud Computing | Data Engineering | Distributed Systems

Tools and Technologies

Kubernetes | Terraform | Helm | AWS | GCP | Linux | Gateway API | Backstage | Harbor | Kafka | Grafana | Prometheus | ELK Stack | Istio | Argo Stack | Netbird | Cloudflare | Ansible

Programming Languages

Python | Bash | GoLang | SQL

EDUCATION

B Tech, Production Engineering

Veermata Jijabai Technological Institute

07/2011 - 05/2015 Mumbai

PROFESSIONAL EXPERIENCE

Systems Engineer

Sugarbox Networks 04/2020 - 02/2021 Mumbai, India

- Designed and implemented a high-availability monitoring and alerting platform for 200+ edge and CDN nodes using **Prometheus**, **Grafana**, and **ELK**, improving system reliability
- Improved CDN deployment efficiency by 30% by standardizing base configurations with custom Debian OS images
- Developed data ingestion pipelines using **Apache NiFi** and **PySpark** for real-time edge telemetry processing
- Automated node provisioning and configuration management across the edge fleet using **Ansible** and **Salt Stack**

ADDITIONAL EXPERIENCE

Sr Support Quality Engineer

Alfa Laval India Pvt Ltd 07/2015 - 04/2020 Pune, India

Specialized products and solutions for Heavy Mechanical Industries

OPEN SOURCE CONTRIBUTIONS

AWS Landing Zone

01/2023 - 07/2023

https://github.com/ollionorg/aws-landing-zone

Led a team of 4 to develop an open-source AWS Landing Zone using Terraform, enabling multi-account, multi-regional AWS environments with secure defaults out of the box

Netbird Python Client

08/2025

https://github.com/drtinkerer/netbird-python-client

Python client library for the NetBird API. Provides complete access to all NetBird API resources with a simple, intuitive interface.

PROFESSIONAL CERTIFICATIONS

Kubestronaut (CKS + CKA + CKAD + KCNA + KCSA)

CNCF (view creds)

Google Cloud Certified - Professional Cloud Security Engineer

Google (view creds)

Google Cloud Certified - Professional Cloud Architect

Google (view creds)

Google Cloud Certified - Professional Cloud Network Engineer

Google (view creds)

Google Cloud Certified - Professional DevOps Engineer

Google (view creds)

AWS Certified Solutions Architect - Associate

AWS (view creds)

AWARDS AND RECOGNITIONS

Rising Nova Superstar

10/2022

Recognized for high-impact delivery as a newcomer at Ollion

The Trendsetter Recognition

11/2025

Recognized for leading successful migration of multiple business units to Google Cloud, generating $200K+ revenue as sole engineer on a 2-year client engagement

PERSONAL TRAITS

Bookworm

Unfolding worlds, one page at a time.

Creative and Analytical

Strong intuitions towards Science, Mathematics and Engineering

Empathetic human being

Helping by nature and possessing deep concerns for all life forms

Volunteering and Mentoring

As we grow older, you discover that we have two hands — one for helping ourselves, the other for helping others

Multitasking and Strategic decision making

Competitive e-sports gaming
